

Box Artifact Delivery

This generated PDF verifies that a Box job can produce a real document for private R2 storage, Telegram delivery, and a signed 24-hour download link.

Verified contract

Stage	Expected result
Generate	A valid, readable PDF is written in the Box workspace.
Authorize	The Box receives one short-lived upload token for this object.
Store	The Worker streams the object into a private, job-scoped R2 key.
Deliver	Telegram receives the document and a signed 24-hour link.
Retain	R2 removes the object after 30 days through a lifecycle rule.

Smoke marker: BOX_ARTIFACT_PDF_OK. The marker is intentionally extractable so automated checks can confirm that the final file is not empty or corrupted.
